Dr. Fowler,

Our initiation went well last December. We had 8 new initiates, and I am proud that we have all three engineering programs represented in our officers for this semester.

We will be holding our first meeting next week, Feb 5, 1998, and I hope to have a listing of the eligible students for TBP. In addition, we will be planning a half day program in March geared towards employment experiences/career selections.

I look forward to meeting everyone at the district meeting. I am going to be encouraging our officers to attend the district meeting, as well as our advisors.

Margie St. Germain
